## **INTRODUCTION**

Please take time to read this Instruction Manual before unpacking your Isorak equipment support. It will show how to assemble the unit correctly and the shelf heights available to build your rack.

### **WARNINGS**

1. The shelf is manufactured from 30mm MDF painted with a hard paint finish, however it should not be exposed to rain or excessive moisture.
2. Whilst the paint finish is harder than normal, there is still a risk of scratching, so please take care at all times as scratches and marks are excluded from warranty.
3. The larger support poles are heavy and you should exercise care at all times.
4. The spikes supplied are very sharp and you should exercise care at all times.
5. Do not push the shelf unit side ways excessively as the unit is of modular construction.
