WISA CINEMA HUB

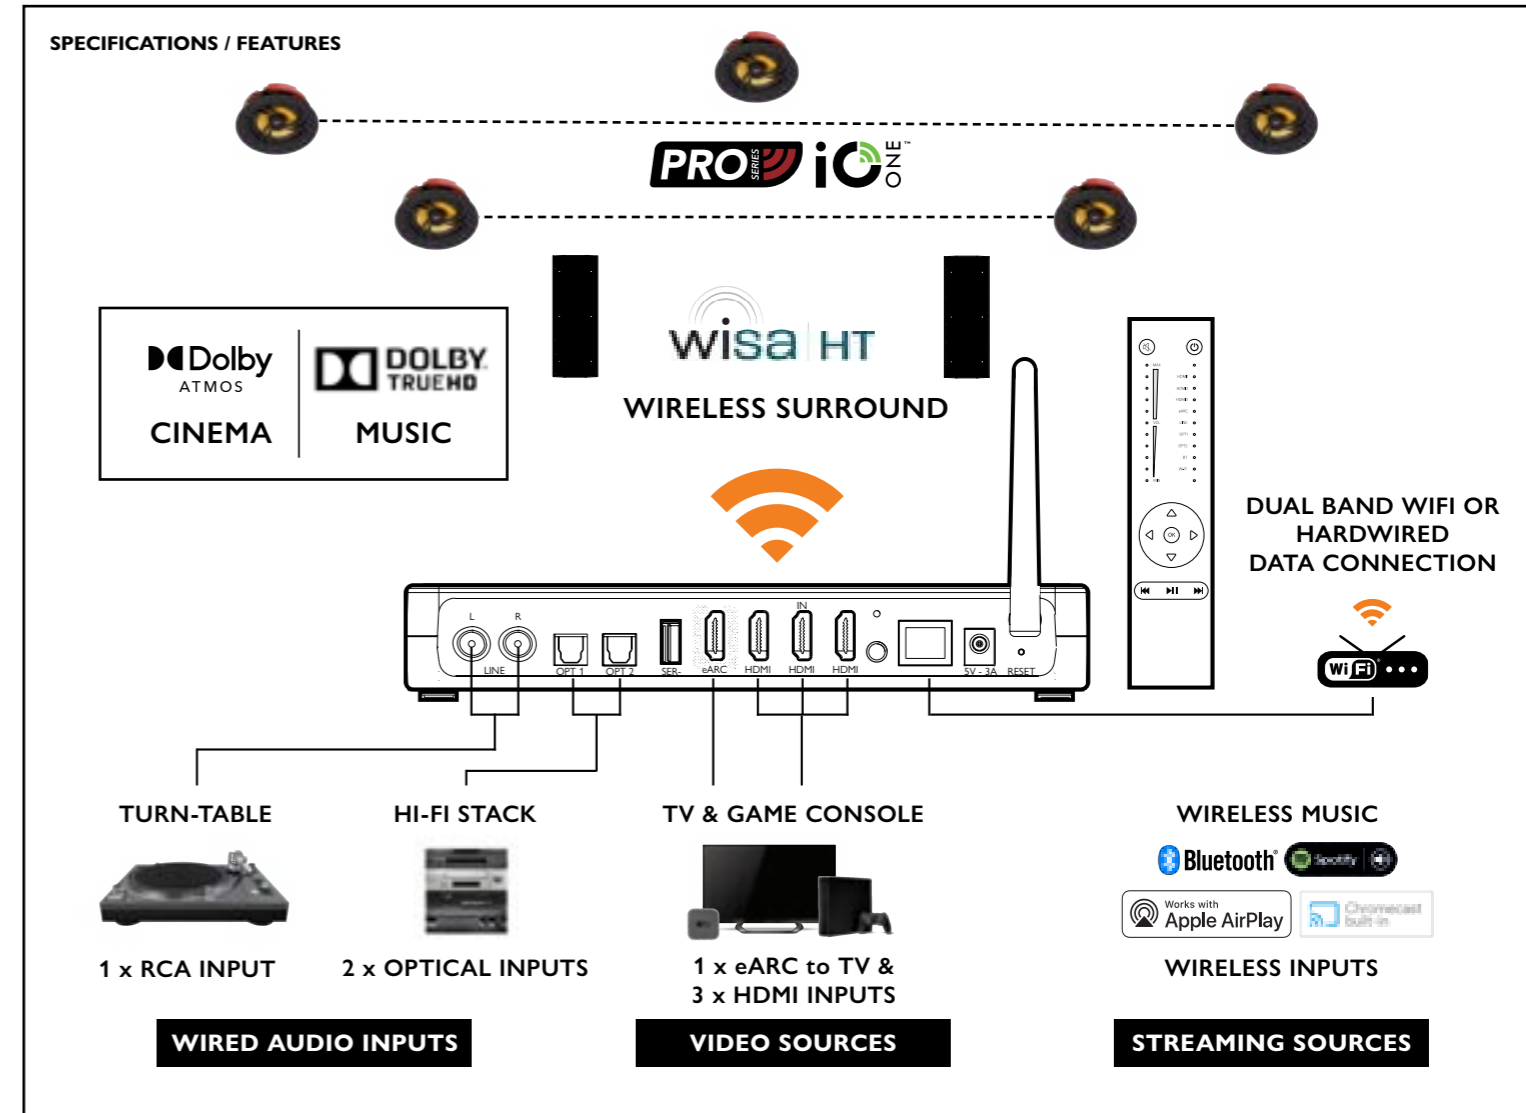

YOUR DIGITAL AVR

WIRELESS ALTERNATIVE TO AN AVR

This powerful device combines the best digital and analogue audio inputs for wireless streaming and video via HDMI inputs into one compact media unit. The Hub allows you to connect all of your audio and video components, such as a TV, DVD player, and gaming console, and control them with a single remote. The Hub is connected wirelessly to any WISA-certified speaker which amplifies the signal and delivers powerful, high-fidelity sound for a home theatre setup without cables.
